Subject: RE: EFAB Workgroup - Cost of Capital

Thanks, Joanne! Happy to get that workgroup back together.

MaryAnna and Cynthia, it might be faster if you could let me know the names of the workgroup members. That way, I can reach out to everyone.

Subject: EFAB Workgroup - Cost of Capital

Tara,

Ed told us you were filling in until further notice for EFAB and we appreciate it. I know my timing is way off but when you can regain your schedule following the inauguration tomorrow, it would be great to get the Cost of Capital work group organized to have a call. They have not come together since well before the holidays and need some support from EPA moving forward. I'm copying MaryAnna Peavey and Cynthia Koehler (co-chairs), along with Ted Chapman who was backstopping this initial charge to figure out schedules when you are ready.

Thanks for your help getting this group organized in time for our next EFAB meeting.

Regards,

Joanne
